

IMPORTANT SEWER SERVICE INTERRUPTION NOTICE

Date: **Friday, October 30, 2026**

Location: **McSherry Woods Drive**

Estimate Start Time: **8:00 AM**

Estimated Duration: **4 to 8 Hours**

Dear Littlestown Borough Resident,

Please be advised that **sanitary sewer service in your area will be temporarily unavailable on Friday, October 30, 2026**, while necessary work is completed on the sewer system. This work will be located at the end of McSherry Woods Drive.

To help prevent backups and protect your property, please take the following actions before the service interruption begins:

- **Run the grinder pump manually, if possible, to fully drain the tank prior to the outage.**
- **Shut off power to your grinder pump at your home's electrical breaker panel.**
- **Minimize all water usage during the service interruption.**

Please avoid activities that discharge water to the sanitary sewer system, including:

- Showering or bathing
- Washing laundry
- Running dishwashers
- Running sinks or faucets
- Flushing toilets
- Any other significant water use within the home

The grinder pump tank at your home has a limited storage volume that it can hold. While service is unavailable, exceeding this volume may cause a sewer backup at your property or in your home.

While each grinder pump system is different, an average tank volume could equate to five (5) toilet flushes or one five (5) minute long shower. We recommend you do not use water at your property during the duration of the service interruption. Please make appropriate preparations for the service interruption as identified in this notice.

The duration of the service interruption is only an estimate. Residents will be provided notified when normal service is restored.

We appreciate your cooperation and apologize for the temporary inconvenience. If you have any questions or concerns, please contact the Littlestown Borough at [\(717\) 359-5101](tel:7173595101).

Thank you for your cooperation,
